

## Past Performance

### Support Advanced Metering Systems for the U.S. Coast Guard

Provide technicians for installation of advanced electrical meters and pre-wire high voltage lines.

### Physical Needs Assessment Pilot Testing for the U.S. Department of Housing and Urban Development

Complete Physical Needs Assessment and Energy Audit under a Pilot Program to beta test newly developed software involving 2500 Public Housing Units.

### Facilities Maintenance & Support for the 99<sup>th</sup> Regional Support Command

Manage maintenance of multiple facilities, conduct condition assessments, monitor contractors, and provide input on proposed projects.

### Development of CNA e-Tool Template for the U.S. Department of Housing and Urban Development

Develop CNA e-Tool prototype template for use by multiple agencies.

## Focus

RRC Consulting Group, Inc. (RRC) is a fast growing, SBA certified 8(a) company, focused on providing risk reduction & control services through building engineering and environmental solutions to:

- Reduce occupant risk and services to improve operation
- Reduce energy consumption
- Extend the life of the building structure
- Assess building conditions and gather information on building dynamics to determine impacts and establish preventive strategies
- Develop capital improvement strategy

## RRC Consulting Group

RRC Consulting Group, Inc. (RRC) provides Facilities Support, Environmental Consulting, and Environmental Health Services for Commercial, Public, Industrial, and Residential properties coast-to-coast.

Combining the resources of highly qualified professionals with demonstrated performance, RRC has distinguished itself in the industry for risk reduction and control.

Headquartered in Pittsburgh, PA and with resources throughout the United States, RRC has the ability to respond quickly with a broad range of services to find solid solutions to your most difficult problems.

RRC believes in creating and providing data-driven solutions for our Client resulting in quantifiable information translating into increased value to the Client's bottom line. Our ability to synergize our Clients' needs with cutting edge technologies like digitally recorded thermal imaging, sound measuring, and vibration analysis along with solid

business practices supports our Client to meet all their objectives, while still maintaining a lean and cost effective approach.

RRC utilizes an industry best practices approach when developing action plans to meet Client needs. This approach combined with constant analysis of Critical Success Factors (CSF) allows RRC to continually provide intelligent solutions to the most complex problems.

During catastrophic situations such as hurricanes, tornados, floods, and other natural disasters, our catastrophic team can respond quickly anywhere in the nation to perform damage assessments, engineering studies, environmental health surveys, moisture intrusion analysis and rapidly prepare remediation/restoration plans to aid in build back.

RRC also provides building forensics for insurance companies, commercial and educational buildings. We conduct failure analysis to determine related and potential damage, mitigation strategy, and any assigned responsibility.

## Business Lines

### Facility Maintenance Management

- Maintenance Engineering
- Operational Logistics
- Asset Management
- Supply Chain Management
- Computerized Maintenance Management Systems

### Performance Assessment & Analysis

- Energy Audits
- Facility Condition Assessments
- Operational Readiness
- Fire and Life Safety Audits
- Building Forensics/Thermography
- Life-Cycle Analysis
- Optimization
- REAC Pre-Inspections

### Engineering

- Facility Engineering
- Building Inspections

### Construction Services

- Project Management
- Construction Inspections
- Building Commissioning

### Environmental Consulting

- Environmental Site Assessments
- Regulatory Compliance
- Environmental Health Management Solutions
- Indoor Air Quality Assessments
- Mold Assessments and Remediation Plans
- Environmental Training Services

Polynesians practiced a nature-oriented belief system for thousands of years. Their deities, 'aumakua appeared in any plant or animal form including sharks, hawks, lizards, and turtles. 'Aumakua Hawai'i, a 501(c)3 (nonprofit) organization, takes on the idea of the 'aumakua by serving Hawaiians and supporting our nation. RRC, under 'Aumakua Hawai'i, supports government agencies and private clientele with their services.
